

Heart of Georgia Altamaha Citizen's Review Panel

December 24, 2014

Transportation Investment Act of 2010 (TIA)
Annual Report

Honorable David Ralston,
Speaker of the House
State of Georgia

Honorable Casey Cagle
Lt. Governor
State of Georgia

This letter serves as a report for the activities of the Citizen's Review Panel for the Heart of Georgia – Altamaha region.

The following individuals currently serve on this Citizen's Review Panel: Roy Herrington of Baxley, Phil Best of Dublin, H. G. Yeomans of Swainsboro, Homer Garnto of Adrian (who replaced Kathryn Fisher of Cochran following her resignation) and Billy Trapnell of Metter. The panel met three times during the year, February 27th, July 24th, prior to the Regional Commission meetings. Due to there being no Regional Commission meeting in December, the meeting was held in Metter, at the City Hall on December 2nd, 2014 at 3:00 PM. During these meetings we were presented request for Band Changes and updates on all active and planned TIA projects. Thus far projects totaling \$1.5 million have been completed under budget and GDOT staff is confident that all projects in Band One will be under construction by December 2015. The majority of the projects were local in nature and did not have a defined benefit, however, the Department maintains that these projects were completed to accepted industry standards, as intended on the original project submittal applications, and to the satisfaction of the local jurisdictions.

Minutes of the meetings held during this year, 2014, as well as reports on the projects completed are included with this letter. These minutes cover the actions taken by the Panel in reviewing the projects approved in the TIA program.

Mike Dover, his staff, as well as other GDOT staff continue to be very helpful to our communities and this panel in accomplishing the duties assigned, to improve transportation in Region 9. Likewise Brett Manning, Executive Director of the Heart of Georgia-Altamaha Regional Commission, and his staff are vital to the success of this program.

We feel that the 98 projects which have been completed, 52 local deliveries and 46 GDOT let, met the needs and desires that were anticipated by their respective communities.

Sincerely

Billy Trapnell
Chairman
P O Box 74
Metter, GA 30439

CALL TO ORDER

The TIA Citizens Review Panel meeting for February 27, 2014 was held at the Mount Vernon/Montgomery County Community Service and Senior Citizens Center in Mount Vernon, Georgia. The meeting was called to order at 6:01 P.M. by Chairman Billy Trapnell, Mayor of Metter. Chairman Trapnell welcomed everyone to the meeting and called on Roy Herrington, to give the invocation.

INTRODUCTION OF GUESTS

Chairman Trapnell introduced and welcomed Homer Garnto a new TIA Citizens Review Panel member and then asked Mike Dover, TIA Administrator, Georgia Department of Transportation (GDOT) to introduce his staff. Mike introduced Tony Sanger, TIA Program Manager; Tony Collins, Local Liaison for HOGARC area; Jill Goldberg, Communications/Media Manager; Shrujal Amin, Project Manager; and Kelvin Mullins, TIA Regional Coordinator.

APPROVAL OF DECEMBER 10, 2013 MEETING MINUTES

Chairman Trapnell stated that the Minutes for the December 10, 2013 TIA Citizens Review Panel Meeting had been mailed out to all Members and he would entertain a motion for approval. A motion was made by Roy Herrington and seconded by Phil Best to approve the Minutes, as mailed. The motion passed with no opposition.

REVIEW OF REQUESTS FOR PROJECT BAND CHANGES

Chairman Trapnell stated that there had been another group of request for band changes for Band 1. Chairman Trapnell stated that the Regional Advisory Council had approved the band changes and that GDOT had also reviewed and accepted the changes. A motion was made by Roy Herrington and seconded by H.G. Yeomans to approve the Group 3 Band 1 changes. The vote passed unanimously.

GEORGIA DEPARTMENT OF TRANSPORTATION TIA STATUS UPDATE

Chairman Trapnell then called on Mike Dover to update the Panel. Mike stated that we have come a long way with the TIA program. Mike stated he would like to review band changes and how much progress has been made in a years' time. Mike explained that this was the third round of band changes and that GDOT wanted to be as flexible as possible with changes. He did let them know that there are procedures for band changes and that it was critical that they follow the procedure. He stated that when a local government requests a band change they should make sure that they justify the change. He also let them know that there is some unbalancing between the bands. He asked that they try to keep the projects budget neutral. He stated that as of right now Band 2 was unbalanced therefore the local government has to pay the difference until Band 3 when the local government would be reimbursed.

Mike then informed the Panel about some success stories. He let them know that a groundbreaking had been held for the Eastman Bypass. He stated this was a blended project including federal money along with TIA funds. He stated this project would not

have accelerated as quickly if it had not had the TIA money associated with it. He also let them know that an outreach event had been held in August for disadvantaged and small businesses to help firms interested in learning more about upcoming opportunities related to the TIA program projects.

Mike also informed the Panel that a local government survey would be sent out to help GDOT with customer service and to let them know how they are doing in the TIA office. The survey will also have questions pertaining to how the local governments are using their discretionary money.

Mike stated that they currently have a year of collections on hand. He asked them to submit invoices if the local government is doing the work on projects. He stated they would be sending out a letter with an email address on where to send the invoices.

Mike then talked about collections. He stated that for all three regions that passed T-SPLOST \$130 million had been collected. Mike then showed a chart explaining that \$98 million had been collected for projects on the improved investment list for all three regions. He stated that for these three regions the local governments were splitting around \$32 million for these projects. He stated that was good for a year's worth of collections.

Mike then asked Tony Sanger, Program Manager, GDOT to explain to the Panel about inflation and how the program is being managed. Tony stated that the HOGARC is down 20% in collections and they have looked extensively at what to do about it. Tony showed several graphs and explained that with the plan they have in place all projects should be able to be delivered as planned. Mike added that even though we are 20% behind he feels comfortable with the program and currently have had no contracts come in over what was estimated using the 2011 dollars. A question was asked about how the bids are coming in. Tony stated that are coming in 8-12% lower.

Mike let everyone know that they have a Facebook and Twitter account and also send out e-blast for communication. He also let them know that if a local government is delivering their projects they have signs available to order. Mike showed a 2x3 sign that is available to order at \$46 each. He stated that he had order forms available or they could also go on the website to obtain and order form.

Mike then gave the status on some of the major projects for the HOGARC area. He stated Wayne County had two projects on the approved investment list. One of the projects for Wayne is SR 169. He informed them that Wayne County is managing the project and they are moving forward with preliminary engineering. He stated the project would be let in late 2015. The Oconee River Bridge project in Laurens County which is a blended project will be let in June, 2014. Appling County's blended project is the US 1 Bridge over the Altamaha River with a proposed letting in June, 2014. He stated that they are getting some of the preliminary engineering for Band 2 projects underway.

Mike then asked Tony Collins to inform the Panel on what the Department was doing with the active resurfacing projects. Tony explained that the TIA budget was \$1.358 million and the award amount was \$1.4 million. He stated that was a good sign. Tony stated that GDOT has let 22 resurfacing projects since June, 2013. These projects were for Emanuel, Johnson, Laurens, Montgomery, and Treutlen counties along with some

municipalities within the counties. The July letting for 2013 was under two contracts and covered Appling County and the City of Baxley with 15 resurfacing projects. The budgeted amount for those projects was \$564,000 and the actual cost was \$338,000. Wayne County and the City of Jesup had 4 resurfacing projects with a budgeted amount of \$547,900 and the actual cost was \$397,000. Another blended project was let in October which was the Eastman Bypass located in Dodge County. They are currently in the early stages of construction which started in December, 2013. The project is a \$7 million project. Tony stated they have projects to be let every month for the next nine months.

Kelvin Mullins, TIA Regional Coordinator, addressed the Panel on local projects. He informed them that this region has been very active on local delivery. He stated he had approved 96 local delivery applications for Band 1 projects and 51 TIA agreements had been executed for those projects. He stated because of local delivery they had already had some success with the program with Toombs County SR 130 being the first TIA project completed. City of Reidsville completed two resurfacing projects and Tattnall County had almost completed a grade, drain, and base project. He informed them that a lot of resurfacing projects all over the region were ready for spring lettings. He also let them know they are working with Appling, Laurens, and Wayne on bridge projects. He asked them to not begin work on any projects before they get the notice to proceed.

Mike Dover asked if he could follow-up on what Tony had talked about earlier. He stated that the priorities for the project delivery are: first priority are blended projects, second are local governments who are delivering the work, and third are GDOT delivering the work.

OTHER BUSINESS

Chairman Trapnell asked if there was any other business to come before the Panel. Brett Manning, Executive Director, Heart of Georgia Altamaha Regional Commission, stated that there would be another set of band change request from local governments. He informed them that they would try to have a TIA Regional Advisory Committee meeting sometime around April to discuss the requested changes.

ADJOURN

There being no further business, a motion to adjourn the TIA Citizens Review Panel Meeting at 6:50 P.M. was made by Phil Best and seconded by H.G. Yeomans. The vote was accepted unanimously.

CALL TO ORDER

The TIA Citizens Review Panel meeting for July 24, 2014 was held at the Mount Vernon/Montgomery County Community Service and Senior Citizens Center in Mount Vernon, Georgia. The meeting was called to order at 5:35 P.M. by Chairman Billy Trapnell, Mayor of Metter. Chairman Trapnell welcomed everyone to the meeting and called on Roy Herrington, to give the invocation.

INTRODUCTION OF GUESTS

Chairman Trapnell asked each person present to introduce themselves.

APPROVAL OF FEBRUARY 27 MEETING MINUTES

Chairman Trapnell stated that the Minutes for the February 27, 2014 TIA Citizens Review Panel Meeting had been mailed out to all Members and he would entertain a motion for approval. A motion was made by Roy Herrington and seconded by Homer Garnto to approve the Minutes, as mailed. Tony Collins asked that a correction be made to the minutes. He stated that on page 3 of the minutes that instead of the award amount being \$1.4 million it should be \$1.04 million. With that correction being noted the motion passed with no opposition.

REVIEW OF REQUESTS FOR PROJECT BAND CHANGES

Chairman Trapnell stated that there had been another group of request for band changes for Band 1. Chairman Trapnell called on Mike Dover, GDOT to address the Panel. Mike stated that the Regional Advisory Committee had approved the Group 4 band changes and that GDOT had also reviewed and accepted the changes. He also stated that he had spoken with Brett Manning before the meeting and was informed that there would be two more band changes that needed to be approved. He asked the Panel to look over the additional two changes and comment on those request. The two additional changes are for Laurens County and the City of Glennville. Bryan Rogers explained the reasoning for the band changes for Laurens County. Mike then gave a more detailed description on the Laurens County projects that need to be moved. A motion was made by Roy Herrington and seconded by Homer Gornto to approve the Group 4 Band 1 changes. The vote passed unanimously. A motion was made by Homer Gornto and seconded by Roy Herrington to approve Laurens County and the City of Glennville's band changes upon the Regional Advisory Committee's approval. The vote passed unanimously.

GEORGIA DEPARTMENT OF TRANSPORTATION TIA STATUS UPDATE

Chairman Trapnell then called on Mike Dover to update the Panel. Mike passed out a fact sheet and then went over each section. Mike explained that at the top of the page it shows the Revenue Collections (75%). He stated that the Original Revenue forecast was \$167 million and the Actual Revenue is \$141 million leaving the overall program 15% behind. He stated there was a reserves policy developed at the beginning of the program. This was developed to put money in since it would be hard to get the activities for projects going in the first 18 months. He stated they are going to discontinue putting any of the

revenue in the reserves. As of now there is \$61 million in the reserves to be used in the later bands to be able to complete the projects.

The next section on the Fact Sheet was the 75%/25% split. He stated that the Heart of Georgia Altamaha RC had received \$9.8 million of the 25% for local projects and \$29 million for regional projects. With a total for all approved TIA regions thru May, 2014 of \$188 million.

The next section was on Local Applications. Mike stated that the HOGARC local governments had delivered 104 local projects. He stated that GDOT had processed 137 of those.

Mike then went over Construction Projects. He stated that GDOT Let projects have substantially completed 42 HOGARC projects and Local Let projects have 26 substantially complete with a total of 68 substantially completed projects.

Mike then talked about the Band 1 projects. Mike stated that all projects now have a strategy in place. For the Band 2 projects he stated that early next year they will start asking for applications. He stated that several local governments are asking to start on Band 2 projects.

Mike let them know that they are still having local small business outreach events. He stated that they have currently held three events and will continue to have more.

Mike stated they are continuing with communications opportunities. He informed them that they are half way through Band 1. He let them know that they have a Mid-Band 1 video on the 18 months status update. He stated they would be sending an email blast and putting the video on YouTube.

Mike then asked Tim Matthews, TIA Regional Coordinator, to explain to the Panel about regional projects. He stated overall nine counties have 14 projects around \$134 million in TIA funds. He let them know some of the projects were blended projects.

Appling County – one blended project (bridge replacement over Altamaha River on SR 4) with a letting of September, 2014 estimated cost of \$24.8 million with \$4.9 million in TIA funds

Dodge County - two projects the Eastman Bypass which is under construction about 20% complete with a completion date of September, 2015; and the 87 widening is in ROW phase (Band 2) – \$1.7 million in TIA funds and the rest federal monies

Emanuel County – one project 100% TIA project, \$6.4 million scheduled to be let in June, 2015

Evans County – one project \$1.7 million Band 2 project with a 2015 design

Jeff Davis – one project \$1.7 million blended SR 135 Altamaha Bridge replacement project. Currently working to seek a consultant for the project

Laurens County – Hillcrest project \$17 million TIA funds with the local government delivering the project

Tattnall County – one project passing lanes from Glennville to Reidsville - \$10.9 million Band 3 project

Toombs County – three projects scheduled for Band 3 for \$101 million with \$58 million in TIA funds

Wayne County – two projects scheduled for Fall, 2015 letting with local delivery estimated cost for both projects of \$16.9 million

Tim let them know that they have had no major issues on the projects and they are moving right along.

Kelvin Mullins, TIA Regional Coordinator, addressed the Panel on local projects. He informed them that this region has around 200 local projects for Band 1. He also let them know that there are 104 approved applications for local delivery of these projects. About half of these projects are either complete or in construction. He let them know that they have several resurfacing projects scheduled for this summer. He stated that last summer GDOT let 41 resurfacing projects which have all been completed. He stated that they are letting projects every month thru December and this would get them through a majority of the Band 1 local projects. He then gave a list of the current lettings.

May – Johnson County had five surface treatment roads with a budget of \$600,000

July – Telfair and Wheeler counties had three roads with a budget of \$336,000

August – Bleckley County and the City of Cochran had four resurfacing projects with a budget of \$371,000

October – Candler, Evans, and Tattnall counties had 13 resurfacing projects with a budget of \$535,000

November – Dodge, Laurens, Montgomery, and Wilcox counties had 18 roads with a budget of \$642,000

December – Dodge County had two roads with a budget of \$1.5 million

Tony Collins informed the Panel on what the Department was doing with the active resurfacing projects. Tony explained that they are in peak construction season. He let them know that the 22 resurfacing projects since the last report have now all been completed. He also let them know that Baxley and Jesup's 19 projects are also complete. Tony then informed them that the Dodge Eastman Bypass was around 20% complete. He let them know that they have finished clearing and that the ROW is clear. The TIA funds for this project are around \$1.7 million. He then explained that the May letting for Johnson County was double surface treatment and the TIA budget was for \$600,000. The

contract came in under that amount at \$487,612. He stated that bids are going up a little but we are fortunate to have multiple bidders keeping it competitive. He let them know that there are 41 projects substantially complete and 6 that are still active. He also told them that the locals are working very well with the Department.

Tony Sanger, TIA Program Manager, updated the Panel on updates to the website. Tony showed the panel some screen shots to show some of the enhancements to the website. He also let them know that they have added a local project status spreadsheet to give more detailed information about the projects. Mike Dover explained why they created the spreadsheet saying that this was created to help vendors who want to participate in the TIA program. This spreadsheet gives them all the information they need for the projects they want to bid on.

Chairman Trapnell complemented GDOT saying they have done an incredible job managing the projects and more importantly helping them as local agents.

ADJOURN

There being no further business, a motion to adjourn the TIA Citizens Review Panel Meeting at 6:37 P.M. was accepted unanimously.

CALL TO ORDER

The TIA Citizens Review Panel meeting for December 2, 2014, was held at City Hall in Baxley, Georgia. The meeting was called to order at 3:00 P.M. by Chairman Billy Trapnell, Mayor of Metter. Chairman Trapnell welcomed everyone to the meeting and called on Joseph Mosley, to give the invocation.

INTRODUCTION OF GUESTS

Chairman Trapnell opened the meeting by having each person present introduce themselves.

APPROVAL OF JULY 24, 2014 MEETING MINUTES

Chairman Trapnell stated that the Minutes for the July 24, 2014 TIA Citizens Review Panel Meeting had been mailed out to all Members and he would entertain a motion for approval. A motion was made by Homer Garnto and seconded by Phil Best to approve the Minutes, as mailed. The motion passed with no opposition.

REVIEW OF YEAR END REPORT ON HOGARC REGION PROJECTS

Mike explained that we are in the closing of year two of the program and as of October, 2014 the program had collected around \$245 million for the three regions. Mike let the Panel know that around 100 projects had been completed for the Heart of Georgia Altamaha region. He provided the Panel with a list of those projects which were categorized by jurisdiction. Mike let them know that the feedback has been very positive with normal hurdles. He is confident we have met expectations.

The next report Mike went over was the Annual Report. He let them know that a total of 700 projects as of November 30, 2014 were included on this report. He explained that this report shows original estimated cost, current estimated cost, prior years cost, current year cost, any corrective action required, and comments for each of the 700 projects.

Mike told the Panel that the reports he had went over were in draft form and he would have a final report sent to the Citizens Review Panel to review by December 5th.

CITIZEN REVIEW PANEL DISCUSSION ON COMPLETED PROJECTS AND REPORTING REQUIREMENTS

Tony Collins explained to the Panel that once the projects are let to construction his role is to monitor these projects to make sure they stay within the budget. He also let them know that all projects in Band 1 are on schedule. He stated he was confident all Band 1 projects would be let by December 31, 2015. Currently, there have been 98 projects completed with 52 local deliveries and 46 GDOT let. He then went through the Completed Projects Report and stated how many projects had been completed for each local government. He then asked if anyone had any questions. There was some discussion on how the project costs were coming in compared to the original estimated costs.

Mike Dover then went over another report on current stats of all projects in Band 1. He stated this report was a quick status sheet for each project and would inform them on what stage the projects were currently in. He let them know he would send the report to them electronically along with a Completed Project Report and Financial Report.

Mike also let the Panel know that federal monies have been cut off by Washington and that if a project is funded only with federal monies they are no longer moving forward. The TIA blended projects are getting top priority for federal funds available. Kelvin Mullins reported on the regional projects for the HOGARC area. Kelvin let them know that they are over 200 projects in Band 1 with 100 projects already complete. He stated most are currently in construction with only around 30 to 40 left to get in construction in 2015. He stated that GDOT has eight or nine projects to let and the rest are local. He also let them know that local agreements are still coming in and that they had received some band change request. As far as the regional projects the Eastman Bypass was under construction with about 35 percent complete with a completion date of September 30, 2015. The Altamaha Bridge replacement in Appling County over the Altamaha River was let in September, 2014 pending a notice to proceed. A question was asked on how they were going to construct the bridge. Mike stated they would construct a bridge parallel to the existing bridge. The Oconee River Bridge in Laurens County was let in September, 2014 and has already had a preconstruction conference and will start work soon.

Mike then informed the Panel about Band 2 projects. He stated that they would entertain Band 2 agreements in Spring/Summer. He also let them know that funds would not be available until January, 2016. He stated that Band 2 was four years not three. He reminded them that because funding would not be available until January, 2016, the local governments would have to fund the projects until then.

Mike also let them know that they are still receiving band changes for Band 1. He stated that they had received band changes from the City of McRae, Town of Cadwell, Wayne and Tattnall counties. He also told them that they are still flexible concerning the band changes.

Mike informed the Panel that they had cancelled a road in the City of Baxley. Project HG-0021, Page Street, is an abandoned private property therefore the project has been cancelled.

ADJOURN

There being no further business, Mayor Trapnell thanked everyone and wished them a Merry Christmas. A motion to adjourn the TIA Citizens Review Panel Meeting at 3:55 P.M. was accepted unanimously.

December 5, 2014

Citizen's Review Panel (CRP) Members
Mr. Billy Trapnell, Chairman
Heart of Georgia Altamaha (HOGA) Special District

RE: Transportation Investment Act (TIA) of 2010

Dear Citizen's Review Panel Members:

The Georgia Department of Transportation presents the attached update through calendar year 2014 on the Transportation Investment Act of 2010 for the Heart of Georgia-Altamaha Special District. Also attached is a summary of the completed projects in the region within the last year. The Transportation Investment Act of 2010 legislation requires submittal of an annual report by the CRP to the legislators by December 31 each year.

The Department is continuing to deliver the Band 1 projects within the region and anticipates that all Band 1 projects will be under construction by the end of December 2015. We are closely coordinating with all local governments to ensure successful delivery of the program. Preliminary activities are also underway for Band 2 projects within the region in preparation for meeting the specific milestones required for Band 2.

This update is provided to you for your information. Please let me know if you need further information regarding the TIA 2010 Program.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Dover".

Mike Dover, P.E.
TIA Administrator
