

ARE YOU A METRA TRANSIT RIDER?

METRA Transit Needs Assessment

The Columbus Planning Department and METRA will hold an open house meeting to solicit citizens ideas for current and future transit services and to present information on the Transit Needs Assessment that is currently underway.

The purpose of this meeting is to give citizens the opportunity to review draft recommendations for the METRA fixed route and dial-a-ride transit system and provide their input.

Input is also being received via mail, e-mail, and phone. Please contact the study team using one of the two contacts below:
